All short runs are printed digitally. Some designs and some colors may incur streaking, mottling, ghosting and other undesirable effects. The colors most likely to do this are light colors, greens, oranges, and neutral colors (shades of gray).

To prevent undesirable effects we suggest avoiding large solid areas, and adding "digital noise" which may help if areas of solid color cannot be avoided.

Photography prints best so we encourage you to use photos.

In the event we need to make changes to your design in order to print, those changes will be made at a very low cost of \$35.00(z) per hour plus the cost of shipping the proofs.
